# Boost eLearning

## Integrated Google Apps Training and Job Aids for End Users

Help your users get the most value and benefit from the full range of Google Apps features and functions. Boost eLearning lets users self-pace their learning of Gmail, Calendar, Docs, and Sites. With training updates for every Google Apps update, users stay current and efficient.

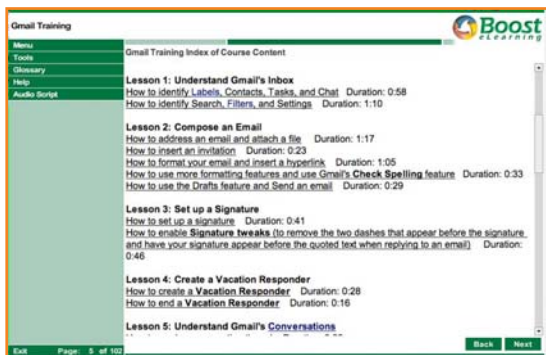

### Integrated, Single Sign-On

End users access Boost eLearning using the **Google Apps Training** option on the **more** menu link at the top of the Gmail screen.

### Effective Change Management and Education

Bridge the transition to Google Apps with "to the point" training that covers each application in detail. Boost eLearning is not simply a video of what to do. Each lesson is captioned and narrated, with guides to emphasize appropriate tasks, steps, and options.

End users can easily complete courses without disrupting their work schedules, with course times ranging from 25 to 45 minutes.

### Performance Support

Boost eLearning lets users review and replay specific lessons and specific skills. Each course provides job aids that help reinforce key tasks and skill.

### Version Now!

Boost eLearning updates each training course within 15 business days of any significant enhancements released by Google. You are notified of how to develop new skills and benefit from the continuous improvements in Google

### User-Centric

Users decide if they need a full course or help with specific skills. With frequent updates, users can keep on top of new features and capabilities.

### Serious Learning

The modular courses use adult learning best-practices, with clear objectives, content reviews, and printable tools.

### Flexible Subscriptions

Order Boost eLearning for all users or only those that need training. Special pricing for education and non-profit organizations is available.

### Universal Accessibility

Courses are SCORM 1.2, 2004, AICC compliant, and meet Section 508 (c) for universal accessibility
