Google Apps Deployment

Setup and Data Migration Services Designed to Meet Your Needs and Your Budget

Your successful Google Apps launch depends on uninterrupted email delivery, data migration, mobile device and systems integration, and managing expectations. We offer a range of deployment services to match your needs, augment your skills, and meet your budget.

Do-It-Yourself

We activate your account and provide deployment assistance as-needed, at an affordable hourly rate.

FasTrack Services

Our Expertise; Your Hands. We help you plan and manage your deployment using best-practice methods and tools, and provide you with technical assistance for an affordable fixed fee. Designed for small and mid-size organizations with IT resources, FasTrack deployments take less than 5 weeks.

FasTrack Plus Services

Migrate to Google Apps in 1 to 3 weeks, with one of our deployment specialists providing project leadership, best-practice methods and select technical involvement

Admin Deployment Services

From technical needs assessment and deployment planning to data migration and user communication, we help lead your deployment efforts and provides hands-on assistance to your IT resources.

With best-practices from hundreds of successful deployments and a focus on knowledge transfer, we help your team prepare to manage and support your Google Apps services.

Premium Deployment Services

In addition to all of the services in our Admin Deployment, our Premium Deployment Service includes "Tier 2" end user services. In addition to working with your IT resources, we assist individual users with mobile device integration and other personal tasks.

Premium Deployment Services are well-suited to businesses with limited IT

Value Add Services

First Class Migrations: Cumulus Global can assist schools and small businesses migrate from the closed First Class system to Google Apps.

Off-Site Migration Services: Cumulus Global maintains a cloud-based environment designed specifically for migrating data from hosted email services and as an alternate process for client-based migrations.

Our off-site migration services let you move your email, calendar, and contact data without impacting network performance or access to desktop systems.

End User Education and Training: Cumulus Global offers a range of end user education and training options.

In addition to the integrated, self-paced, online courses from Boost eLearning, our customized webinars, and Web Office Hour programs provide affordable options that help ensure a smooth transition.

Cumulus GlobalSM helps small and mid-size businesses, non-profits, governments, and educational institutions thrive by delivering cloud computing solutions. We align technology with our clients' goals, objectives, and bottom lines. We leverage our expertise, vendor relationships, and a diversified range of best-of-breed cloud services to create custom solutions with tangible value.
