CumuluSuiteSM for SoHo

Integrated Email, Communications, and Collaboration Services to Build Your Business.

You do not want, nor do you have the time, to be the IT guru. And yet, your IT services must be reliable and secure. CumuluSuite for SoHo gives businesses with 1 to 20 employees affordable email and IT services with the features, security, and support businesses want and need.

Basic Bundle

Google Apps for Business is more than a secure, guaranteed version of Gmail. Google Apps for Business gives you control over your calendar, contacts, and documents. With free voice/video conferencing, secure IM, and secure web sites, you have a robust suite for managing your communications and information. The Basic Bundle includes Google Apps for Business, full setup services, contact sharing, advanced security and auditing features, and unlimited support for you and your team.

Safe Bundle

The Safe Bundle enhances the Basic package with fully compliant email archiving and eDiscovery services. Designed for businesses with regulatory (SEC, FINRA, etc.) or policy needs, retention runs up to 10 years.

Secure Bundle

The Secure Bundle adds message .level encryption services to the Basic package. Delivering encrypted messages to your recipients' inboxes, Secure is a powerful component of your HIPAA, PCI, or other privacy requirements.

Professional Bundle

The Professional Bundle combines the Safe bundle with data backup and recovery services for Gmail, Google Docs, Google Sites, and your social media accounts. Move into the cloud with peace of mind.

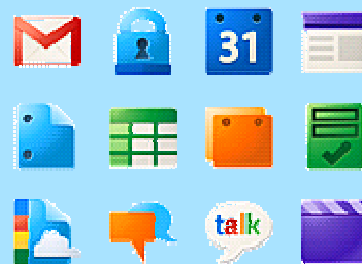

Medical Bundle

Small medical offices have special needs for data privacy and protection. The Medical Bundle meets these needs by combining the Secure Bundle's encryption services and integrated backup/recovery for all of your data in the cloud.
