Google Apps for Franchises

A Robust Suite of Secure, Integrated Communication and Collaboration Services

Reinforce your brand while providing franchisees with affordable, state-of-the-art email and collaboration services. Leverage Google Apps to distribute and share information without building and supporting a costly infrastructure. Multiple billing options give you financial flexibility.

Gmail. With a 25GB per user inbox, labels, and search, users do more than send and receive; they organize, find, and use information.

Calendar. Personal, resource, and shared calendars help users and teams manage time and resources.

Talk. Secure Instant Messaging with transcripts along with free VoIP voice and video conferencing improves communications.

Groups. Threaded discussions, distribution lists, and subscriptions help teams work together more effectively.

Docs. Online office productivity with real time collaboration, file storage and sharing, and desktop suite integration enable more efficient document preparation and information sharing.

Sites. Web sites built via wizards and templates allow businesses to easily create secure information repositories, project team sites, and customer portals.

Video. Private, secure YouTube for internal business videos lets you share recorded meetings, training, and other video resources.

Mobile. Synchronize Email, Calendar, and Contacts to blackberries, iPhones, Droids, and nearly 95% of all smart phones sold today.

Postini Services. Email security provides the best spam and virus protection available.
