Small / Home Office Solutions

Cloud Solutions for Independent Professionals and Small Businesses

You do not want to be the IT department. You rely on technology, need access your data from anywhere, and cannot afford downtime or data loss.

Cloud solutions remove the burden of building and maintaining an IT infrastructure while giving you new tools for growing your business.

Communications and Collaboration

Cloud solutions, including Google Apps, provide secure access at anytime from anywhere to email, calendar, contacts, and a range of productivity solutions. With cloud storage for document sharing, and secure customer portals, Google Apps for Business lets you work with your team, and your customers, more effectively and efficiently.

Email Security

Whether for regulatory compliance or internal policy, we offer a range of email security services. Google Message Security provides inbound and outbound spam and virus protection. Message Archive & Discovery provides compliant email archive and e-discovery services, with up to 10 years retention.

Web Security

Corrupted web sites are the leading source of viruses and malware attacks. Web filtering and security services prevent damage to your data and systems, protecting you from infected downloads and malicious code.

Backup & Recovery

Secure, high performance online backup and recovery services provide reliable data protection against lost files as well as the big disasters with little or no intervention on your part.

Cloud Storage

Access your files securely from anywhere you have an Internet connection. With file transfer acceleration and multi-faceted security options, your data remains safe and secure without the overhead of a file server and local disk space.
